54-_____

17 March 1949

SUBJECT: ⊏   ⊐

TO: HEIDELBERG "RIGBY"
     ATTN: ⊏   ⊐

REFERENCE: HGU-A-54

1. Subject individual was interviewed by ⊏   ⊐ and myself
on two occasions during the course of his recent home leave in the states.
One interview took place immediately upon his return; the other upon his
completion of a vacation.

2. The possibility of his coming with this organization was broached
to him and remains open at this point. However, a number of considerations
make this possibility a rather questionable one. These include the fact
that he has already signed for another tour of overseas duty in his present
position; and the fact that the reports which we have received to date on
his ability and efficiency are somewhat mixed.

3. The situation is further complicated by the fact that his family
has remained in Berlin and he is reluctant to be separated from it for any
length of time. Consequently, in order to accomplish our own desire of having
him spend at least six months in the states for basic indoctrination, it would
be necessary for us to transport him and his entire family from Germany to
the United States and back again.

4. ⊏   ⊐ was generally aware of your sphere of activity and was
sympathetic to it. He offered to be of such assistance as he could be to
you in the position which he now holds. He was instructed, however, not to
make overtures to you, but to await your approach to him in the event that
you required his good offices. I suggest that this is a liaison that should
be handled very carefully; it should not be employed unless necessary and
then only on the basis of a thorough and precise briefing as to the nature
of your particular problem.

5. For your information, ⊏   ⊐ is now a CAF-14 and there is some
question in our minds as to whether we could fit him into our organization
at that grade.
